SUMMARY

Head of DevOps & Cloud Infrastructure Technology Executive with 20+ years of experience driving large-scale DevOps transformations, cloud migrations, and infrastructure automation across global enterprises and fast-growth organizations. Proven success building high-performing DevOps and SRE teams, delivering CI/CD excellence, and ensuring security, scalability, and resilience across multi-cloud environments (AWS, Azure, GCP). Expert in Kubernetes, Terraform, and DevSecOps practices, with a track record of improving deployment velocity, system reliability, and cross-functional collaboration. Passionate about innovation, automation, and enabling development teams to deliver secure, high-quality software at scale.

CORE COMPETENCIES

- DevOps & SRE Leadership
- Cloud Infrastructure (AWS, Azure, GCP)
- CI/CD Strategy (GitHub, Jenkins, CircleCI, GitLab)
- Infrastructure as Code (Terraform, CloudFormation, Ansible)
- Kubernetes & Container Orchestration
- Serverless & Microservices Architectures
- DevSecOps & Compliance Automation
- Observability & Monitoring (Prometheus, Grafana, ELK, Datadog)
- Cybersecurity & Compliance (CISSP, HIPAA, PCI DSS, ISO27001, 21CFR Part 11)
- AI/ML Integration in DevSecOps Workflows
- Strategic Technology Roadmapping

EXPERIENCE

CardinalTalent.ai

 **Oct 2024 - Present | SF Bay Area, CA / Remote**

- Established secure, compliant & highly available cloud infrastructure (AWS) with Terraform IaC
- Implemented SRE-based monitoring with SLOs/SLAs with 24x7 alert/response to achieve 99.99% uptime.
- Drove the building/training and implementation of GenAI/LLM models for the AI Interviews, Resume and Job Matches.
- Implemented AI-driven monitoring and anomaly detection using LLMs and automated remediation pipelines.

EverHealth, an EverCommerce Company

 **Jul 2023 - Oct 2024 | Denver, CO / Remote**

- Directed enterprise-wide DevOps and Production Infrastructure for 10+ SaaS products, managing a \$10M+ OPEX budget.
- Defined and executed DevOps strategy enabling **75% faster deployments** through fully automated CI/CD pipelines (Jenkins, GitLab, CircleCI).
- Migrated legacy applications to **Kubernetes (EKS)**, achieving 99.99% uptime and scalable cloud performance.

- Implemented centralized monitoring and observability (ELK, Prometheus, Datadog), improving incident response time by 50%.
- Partnered with CISO to embed **DevSecOps** and IaC security, ensuring compliance with **HIPAA and SOC2/ISO27001** standards.
- Fostered a global DevOps culture of automation and accountability, reducing operational incidents by 60%.

Signant Health

 **2019 – 2023 | Philadelphia, PA / Global**

- Built and scaled a global DevOps and SRE team from 20 to 100+ engineers, modernizing architecture and delivery pipelines.
- Migrated complex systems from on-prem colocation to **AWS & Azure** using **Terraform**, reducing hosting costs by **\$3M+ annually**.
- Designed and implemented **DR/BCP frameworks** with <5 min RPO and 2-hour RTO with regular BCP/DR exercises.
- Established standardized CI/CD pipelines and configuration management practices, accelerating release cycles by 70%.
- Implemented **Monitoring & Telemetry** (NewRelic, AppDynamics, Prometheus, Grafana, Sentry etc.) to achieve 4-9s uptime.
- Achieved and maintained **SOC2 and ISO27001** certifications through strong governance and compliance automation.

Baker Hughes, a GE Company (BHGE)

 **2016 – 2019 | San Ramon, CA**

- Built 50+ global DevSecOps teams, defining career frameworks, automation standards, and operational excellence KPIs.
- Delivered a **multi-cloud strategy** (AWS, GCP, Azure) supporting \$100M+ enterprise contracts.
- Achieved **99.99% uptime** via robust SLOs, telemetry, and incident management frameworks.
- Implemented CI/CD automation and IaC pipelines reducing deployment times from hours to minutes.
- Established security controls and SIEM integration (Sumo Logic) for real-time anomaly detection.

Veeva Systems

 **2013 - 2016 | Pleasanton, CA**

- Scaled infrastructure and DevOps operations through hypergrowth and IPO; managed \$10M+ annual infrastructure budget.
- Implemented CI/CD and configuration management (Puppet, Ansible) across multi-cloud environments.
- Expanded global hosting capacity 5x while maintaining 21 CFR Part 11, SOC 2, and ISO 27001 compliance.
- Improved uptime to 99.95%+ across all environments via proactive monitoring and IaC automation.
- Integrated acquisitions into unified infrastructure operations, reducing onboarding time by 60%.

Oracle / PeopleSoft

Pleasanton, CA

- Led global SaaS hosting and infrastructure teams (200+ staff).
- Scaled Oracle CRM OnDemand from 50 to 500+ environments, saving \$15M annually through automation.
- Directed central architecture for PeopleSoft Enterprise HCM 9.0 and Fusion migration initiatives.

EDUCATION

Indian Institute of Science (IISc) Master of Science • Mechanical Engineering • 1987 - 1989

LICENSES & CERTIFICATIONS

(ISC)2 Security CISSP (ISC2-CISSP) Certificate # 738367 • Issued Jan 2022 - Expires Dec 2027

HONORS & BOARDS

- Patent: Database Index Monitoring System (Patent Number: 8626729) USPTO • 2009

SELECTED DEVOPS ACHIEVEMENTS

- Reduced deployment cycle times by 75% via CI/CD automation.
- Migrated 200+ applications to Kubernetes with near-zero downtime.
- Instrumented BCP/DR processes for near-real-time failover.
- Saved \$3M+ annually through IaC and cloud cost optimization.
- Drove AI/ML-based monitoring for predictive scaling and reliability.
- Built global DevSecOps/SRE teams across 5 continents, fostering innovation and delivery excellence.
